GENERAL NEWS.

The city treasurer of Lowell, Mass., has been restrained from paying over any of the \$10,000 lately appropriated by the City Council for the relief of the Portland sufferers, by an injunction from the Supreme Court, granted at the request of some of the citizens. Several others have taken similar action, it being understood that the municipal authorities have no right to make an appropriation of funds collected by taxation for other than specified purposes.

A few cases of cholera are reported daily in Philadelphia, but so far as examinations have been made by the sanitary committee none of them have been declared to be Asiatic cholera, although the physicians reporting them have pronounced their cases to be of that disease. The sanitary committee say that the cases examined by them are of a malignant type of cholera morbus.

A dispatch from Helena, Arkansas, dated the 14th, says: Mrs. Henrietta W. Davenport has just been notified that she has fallen heir to an estate worth \$2,000,000, in Scotland, through her uncle, Robert Bruce Blackburn, recently deceased, who was one of the heaviest manufacturers in Europe.

Gov. Swann, of Maryland, in a recent speech at Frederick, took strong ground against the Radicals and approved of the course and policy of President Johnson. So did ex-Governor Bradford. Governor Swann is against negro suffrage.

Among the persons who died from sunstroke in Baltimore, on Tuesday and yesterday, were Wm. Spear, insurance agent, Captain James Frazier, and Capt. W. Pridham. About thirty persons in all died.

Mr. Towers, of Philadelphia, arrested for being concerned in the assault upon Mr. Painter, in the Capitol, has been discharged from custody by order of the House of Representatives.

The Secretary of the Treasury has appointed to the new office of special commissioner of the revenue, Hon. David A. Wells, now chairman of the U. S. States Revenue Commission.

Since the close of the war the recruiting service of the regular army has been unusually active, the number of recruits far exceeding those enlisted previous to the war.

The high price of paper is inducing attention to the manufacture of the article from straw, the pulp of wood, &c. Speed the day when the price of paper shall fall.

Every indication shows that if the people of Maryland—the bona fide citizens—could vote, the Radicals in that State would be routed, horse, foot and dragon.

The conscience fund at the U. S. Treasury was further increased yesterday by the sum of \$100, enclosed in a communication from Baltimore.

The total subscriptions in aid of the sufferers by the Portland conflagration in New York city, amount to \$109,553.

THE POLITICAL FUTURE.—Under the head "The Political Future," the New York Times (Republican) has a letter from Washington, signed "R," (supposed to be Mr. Raymond, Jr., C.), in which it is stated that the republican party in Congress "is just now experiencing a panic of more than usual severity, and its action under the circumstances does more credit to its fear than to its discretion. The writer then proceeds as follows:

You may have noticed the passage in the House, a few days since, of a resolution offered by Gen. Paine, of Wisconsin, calling on the States to organize, discipline and equip their militia, and directing that two thirds of the arms, ordnance and ammunition now under custody of the general government be distributed among the States, the distribution among the loyal States to take place immediately, and that among the States lately in rebellion to be postponed until further orders.

The resolution came up from the committee on military affairs and was pushed to a vote without debate or delay, under the previous question. It attracted as little attention in Congress as it has in the country, and the public would doubtless receive with incredulity the assurance that it was intended, by those who secured its passage, as the first step towards preparation for another civil war. Although no debate was had upon it, members were urged to vote for it by direct conversational appeals on the floor, on the part of the few who were privy to its introduction. Some were told that it was necessary to enable the Southern loyalists to protect themselves; others that it was simply a matter of detail in the War Department. Others that the arms must be taken out of the hands of the President; and others that it was proposed at the instance of the Secretary of War.

TRIUMPH OF SCIENCE.—Recent experiments in England have given to the world another triumph of science in the control and management of the dangerous explosive, gunpowder, more wonderful in its results than the use and domestication as it were, of lightning, as applied to the magnetic telegraph. The announcement that gunpowder has been so put under control that in one minute a barrel of it can throw or burn materials will soothe the fire, and in the next instant it can be so re-arranged that it will propel a cannon ball with undiminished force, will possibly draw largely upon the credulity of our readers, but it is stated to be the fact. The gunpowder is rendered innocuous, it is claimed, by admixture with glass crushed to an impalpable powder, which can again be rapidly separated from the gunpowder by sifting.

COMMISSIONER'S SALE OF REAL ESTATE IN FAUQUIER COUNTY.—Under and by virtue of a decree of the Circuit Court of Fauquier, rendered on the 7th day of April, 1866, in the case of Halley and others vs. Weaver and others, the undersigned, as Commissioners therein mentioned, will sell, at public auction, on the premises, to the highest bidder, on the 29th DAY OF JUNE, 1866, that tract of land, of which the late TILMAN Weaver died seized and possessed, situated at Warrenton Junction, in Fauquier co., known as "Owl Run," and containing about 500 ACRES. This tract will be surveyed and sold in convenient and suitable lots and parcels.

Also, at the same time and place, under said decree, we will sell the other tract known as "Kettle Run," containing about 250 ACRES, at public auction, to the highest bidder. This tract lies about five miles from the Junction. These lands afford a fine opportunity for investment, either for cultivation or speculation, and the division into lots near the Junction will be the foundation of a thriving village at that place.

The whole will be sold on the following terms: The purchasers to pay down in cash ten per centum of the purchase money, and execute their bonds in equal amounts, with good personal security for the residue, payable in one, two and three years thereafter, with interest, from the day of sale; the title to be withheld until the whole of the purchase money shall be paid. The ten per centum to be forfeited and the land subject to resale, under the order of the Court, should the purchaser fail to complete his purchase.

SALE OF LAND IN CULPEPER.—By virtue of a decree of the Circuit Court of Culpeper county, rendered at the June term, 1866, in the case of Charles C. Smoot vs. John B. Smoot, admr. of Logan Brandt, dec'd., and others, I shall, as commissioner of said writ, on the FIRST DAY OF AUGUST NEXT, offer for sale, on the premises, at public auction, to the highest bidder, 336 1/2 ACRES OF LAND, in the county of Culpeper, about three miles from Mitchell's Station, on the Orange & Alexandria Railroad, of which the late Logan Brandt died seized. The land is of fine quality, lies in a good neighborhood, and adjoins the farm of the Rev. Phillip Slaughter.

Terms of Sale.—As much cash will be required as will pay the costs of the suit and the expenses of the sale; for the residue of the purchase money, payable in equal installments, in two, three and four years bonds, with good security will be required, and the title will be retained to secure the payment of the deferred installments. **HENRY SHACKELFORD,**

RESUMPTION OF BUSINESS.
STOVES OF ALL DESCRIPTIONS, TIN WARE, ROOFING, SPOUTING, &c.
ENOCH GRIMES, having determined to resume his former business in Alexandria, respectfully announces to the public that he has opened his establishment at No. 43, KING STREET, below Fairfax, on the north side, where he is prepared to furnish the public with every description of articles in his line, which may be wanted. His assortment of COOKING STOVES, will embrace every variety, and of the best descriptions. He would enumerate among them a NOVEL COOK STOVE, the best that was ever in use, and well deserving its name—the LILY, the PALMETTO, and others.

His TIN WARE will be found equal, if not superior, to any ever offered for sale in Alexandria, and housekeepers can have any description of ware of that kind, which they may need, by inviting an examination of his goods, and presents such a selection as cannot fail to please. All kinds of ROOFING and SPOUTING, executed in the best manner, and on the lowest terms.

An experience of forty years in this business, enables him to claim that he has a practical knowledge of it, in all its branches. He is desirous of not only accommodating, but giving satisfaction to his customers and to all purchasers, and he may be assured that what he sells, will be of the best materials and of the best manufacture. He will warrant whatever he sells. It will be his object to secure patronage by constant and personal attention to his establishment.

With this announcement he will open his Manufactory, willing to show by his efforts that the patronage he asks, will redound to the advantage of those who buy, as well as of him who sells, and that the citizens of Alexandria and its vicinity, need not go elsewhere to purchase what can be procured in their own city, from one of their own people.
